For marketing purposes

MSCI ESG Rating: A

Fund Portrait

The fund invests globally in equities from developed equity markets with a focus on liquidity, sustainability, and ESG criteria (environmental, social, governance), as well as having an optimal diversification. The goal is to improve the risk-return profile in comparison to the cap-weighted index over the medium to long term. Investments follow a systematic, risk-based investment process. OLZ forecasts the risk characteristics (volatilities, correlations) for all equities in the MSCI World Index and derives an optimally diversified portfolio based on OLZ minimum variance optimisation. There is no leverage, no short selling and no securities lending transactions.
